Height of Crueity.

Nervous women seldom receive the sympathy they deserve. While often the pictures of health, they are constantly ailing. To withhold sympathy from these unfortunates is the height of cruelty. They have a weak heart, causing shortness of breath, fluttering, pain in side, weak and hungry spells, and finally swelling of ankies, oppression, choking, smothering and dropsy. Dr. Miles' New Heart Cure is just the thing for them. For their nervousness, headache, weakness, etc., his Restorative Nervine is unequated. Fine treatise on "Heart and Nervous Diseases" and and guaranteed by J. W. Gayle.

A clothing dealer, in Boston, advertised all-wool pantaloons for \$2, advising the public to make haste and secure the great bargain, saying: "They will not last long." Probably they would not. Neither will your health last long if you don't take care of it. Keep Dr. Pierce's Pleasant Pellets in your house. They are indispensable to every family, as they positively cure biliousness, with its endless train of distressing allments—sick headache, irritability, constipation, dizziness and indigestion; a marvelous specific for liver and kidney tronbles, and a pure vegetable marvelous specific for liver and a funey troubles, and a pure vegetable compound. They are sugar-coated, the smallest pills made, and the best, because they do all they promise. All druggists sell them, and the proprietors guarantee them, and refund the price if they fail.

A short time since a gentleman from on the Hudson carried away one of our most beautiful and fascinating young ladies. The Jett "Quill Driver" wisely announces his section for the candidate for sheriff, who will give them a deputy? Ducker has felt the annoyance of the drunken blasphemers who make Saturday night hideous with their yells. We got a special deputy, arrested some of them, and administered wholesome fines, since which time we have not been troubled. They now stop at Jett. Give them a taste of law, Unah, and they will cease to trouble you.

The many friends of Miss Virginia Fogg, now at school in Florida, will be gratified to learn that at her first examination she received a high mark of distinction throughout, and in several studies the highest. We are all proud of your success.

We have a new Constitution. We will soon have a new Legislature, and it is to be hoped the new Ligislature will be composed of something other than old fogies. Will they give us a House of Refuge for youthful criminals? Will they increase the number of capital offences? Will they adopt the whipping post law? Will they take away all discretionary powers from juries? If not, if they intend to continue in the old ruts, imprisoning children, filling the penitentiaries with men who ought to be hung and others who ought to be soundly thrashed, then it had been better for Kentucky and her people if they the Legislature had never been born, or at least had never been elected.
